UMD 11 Decoupler

3 Mounting Screw
holes w/plastic caps

Installation Instructions

1. Fasten decoupler into position with 3 screws

2. Mount decoupler permanently to counter

3. Conceal screws with plastic caps as provided

Installation & Usage specifications

- Horizontal surface mount is preferred. Vertical mounting is an option but is not recommended.
- During installation, orient unit so unlocking is achieved by pulling case TOWARD user – NOT AWAY
- Avoid placing metallic objects such as scissors, cutters etc. near the decoupler
- Keep the unit 30.5cm from CRT monitors and Sensormatic AM reactivators.
